

Make Mine a Magnet

Make a wonderful little Magnet to tuck in with a gift, leave on a desk or give to a loved one.

Show someone you care by adding this special little magnet on his or her File Cabinet when no one is looking.

Make a mint tin or cookie or coffee can special when you add a magnet!

Sew out your design on thick cutaway or felt. It is best to choose a more solid easy shape, keeping in mind you need to cut it out.

Add a self-stick magnet to the back of the sew out. Or this is a great time to reuse those silly pizza magnets.

Turn it over. If you have a solid outline and you were unable to cut close enough all around, use a fabric pen to color in any white spots. Add to a little tin and you have a fun little tuck in gift.
