

# Baby Bibs From Towels

Using simple FingerTip or Hand towels, you can create a special baby gift in just a short time using only a few supplies. These bibs are easy on and off, no ties to worry with, and you have the added feature of face cleaning if you pull them off overhead just right!

Assemble a fingertip or small hand towel, scissors, marking pen, an old cd, some knit ribbing, and bits of trim.

Embroider design on one end of towel closer to the bottom edge. Then center and draw a circle using the CD on the other end about 2-4 inches from edge.

Cut out circle, and mark at top, bottom and each side equally with pins. Now cut a strip of the ribbing about 14 inches long and 3 inches wide. Sew short ends together to make a tube. Fold in half with the sewn edge inside. Then mark same as neck. Using your surger or sewing machine, sew the two together to form the neck. Add trims as needed.
