

My Little Love Note

Make a wonderful little Valentine to tuck into a gift, leave on a desk or give to a loved one.

Show someone you care by adding this special little card to their desk when no one is looking or just give them to people you don't know on the street.

See someone having a sad day or not so happy day, pass a little message of love and friendship.

**Practice Random Acts of Kindness
Today and everyday.**

Placing your cardstock on the fold cut out the shape to match your stitch out or lace. When cutting be sure to leave part of the fold to form the top of the card

Add the lace or design cut from felt to the front using double sided tape, or craft glue or Fabri Tack

Add a message of love, support or friendship to the inside. Sign it or not. Now you have a cute little addition to a very special day. ENJOY. May your blessings be many, your troubles be few. Share your blessings!
